FIVE YEAR SERVICE QUALITY IMPROVEMENT PLAN

ATTACHMENT REDACTED IN ENTIRETY

Certification of Service Quality Standards & Consumer

Protection Rules Compliance for Voice and Broadband Services

Golden West Telecommunications Cooperative, Inc. (hereinafter "the Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules.

This document details the processes and procedures that the Company follows to ensure compliance with service quality standards and consumer protection rules as laid out in FCC Form 481 Instructions.

The Company provides voice grade access to the public switched telephone network (PSTN) at a flat rate, thereby enabling access to emergency services provided by local government or other public safety organizations such as 911.

For service quality standards that are affected by plant issues, the Company engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, safe, adequate, and continuous service at all times.

In addition, employees are periodically trained on service quality standards and consumer protection issues. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues, beyond the normal guidelines in place for resolution of customer complaints. A recent example is the call completion problems that have arisen and the customer calls that are generated as a result. Although this is not a service quality problem caused by the Company, it does affect customers of the Company and, therefore, deserves the attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. Internally a compliance officer ensures annual employee training and dictates disciplinary processes for improper use of consumer information. If concerns arise that cannot be handled by the compliance officer, legal counsel is sought to assist with a resolution.

If complaints are filed with the Company related to service quality standards or consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

The Company advertises the availability of its services and the charges using media of general distribution and on its website.

The Company is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C 47 C.F.R. Part 8 §8.3.

The Company maintains six business offices throughout its service area providing customers with access to a customer service representative either in person or via a local telephone number or toll-free telephone number during normal business hours. Customers also have access to the repair service and internet help desk twenty-four hours a day, seven days a week by calling a toll-free number, or by calling one of the business office numbers, which forward to these services after hours.

Certification of Functionality in Emergency Situation

Golden West Telecommunications Cooperative, Inc. (hereinafter "The Company") hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).¹ The Company's critical network infrastructure is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can take reasonable steps to reroute traffic around damaged facilities and manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available and the facility can be safely accessed, or until reasonable system changes are made to reroute traffic.

The capacity of the Company to function in emergency situations encompasses both voice and broadband.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

Golden West Telecommunications Cooperative, Inc.

Description of Tribal Engagement

Golden West Telecommunications Cooperative, Inc. (hereinafter "the Company"), study area 391686, provides services to areas of the Lower Brule Sioux Reservation, Rosebud Sioux Reservation, and Yankton Sioux Reservation.

On September 26, 2013, by letter sent via certified mail to the Tribal Chairman, the Company requested a joint meeting with the Lower Brule Sioux Tribe to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to the first letter; therefore, a follow up letter was sent via certified mail to the Tribal Chairman on November 21, 2013. No response was received from the follow-up letter.

Staff members from Golden West Telecommunications engaged with representatives of the Rosebud Sioux Tribe (RST) on several occasions during 2013 to address issues related to the deployment and provisioning of communications services on the Rosebud Sioux Reservation. The RST Utility Commission's (RSTUC) Public Utility Forum on January 24, 2013 was attended by Golden West's General Manager/CEO, Director of Member Services, Communications and Government Affairs, Director of Video Services, and Project Coordinator. At the Forum, Golden West's General Manager/CEO gave an overview of the services provided on the reservation and responded to questions from the RSTUC. The Company's General Manager/CEO and Director of Member Services, Communications and Government Affairs met on April 5, 2013 with the President and Economic Specialist of the Rosebud Sioux Tribe. Discussions at this meeting focused on Golden West's services on the reservation, right-of way, and broadband affordability in tribal communities. Golden West's General Manager/CEO stated that if the Tribe would designate a building in each community, Golden West would provide free broadband to the building. RST's President thanked Golden West for its services and the resources the Company has invested on the reservation. A follow-up letter was sent on April 12, 2013 to the RST President recapping the items discussed during the meeting and thanking him for the opportunity to meet. Golden West's General Manager/CEO, Director of Member Services, Communications and Government Affairs, and Right-of-Way Technician participated by conference call in the May 7, 2013 RSTUC Meeting to discuss the processes necessary for obtaining permission from RST to complete upgrades on tribal lands. Golden West's Right-of Way Technician also sent an email to the Director of the RSTUC on June 14, 2013 requesting

advice on how Golden West could make the right-of-way process on tribal lands more efficient. Golden West's General Manager/CEO and Director of Member Services, Communications, and Government Affairs met on November 25, 2013 with the President and Chief of Staff of the Rosebud Sioux Tribe. Further discussion was held regarding Golden West coordinating with RST to provide internet access to a building in one of the tribal communities. A discussion was also held at this meeting about the barriers Golden West faces when deploying FTTH or other telecommunications facilities within the Rosebud tribal boundaries. A follow-up letter was sent on December 16, 2013 to the RST President recapping the items discussed during the meeting and thanking him for the opportunity to meet.

On September 26, 2013, by letter sent via certified mail to the Tribal Chairman, the Company requested a joint meeting with the Yankton Sioux Tribe to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to the first letter; therefore, a follow up letter was sent via certified mail to the Tribal Chairman on November 21, 2013. No response was received from the follow up letter.

In accordance with provisions in the FCC's USF and ICC Transformation Order, paragraphs 636 and 637, and 47 CFR 54.313(a)(9), Golden West Telecommunications Cooperative, Inc. will again attempt to organize joint meetings with the Lower Brule Sioux Tribe and the Yankton Sioux Tribe in 2014 and will work to continue discussions with the Rosebud Sioux Tribe. If successful the Company, with Tribal input, will continue to evaluate the need for future service deployments on Tribal lands while working to overcome challenges associated with right-of-way and permitting processes. The feasibility and sustainability of communications services on Tribal lands will be discussed and the Company will, with assistance from the Tribal authorities, attempt to identify additional steps that can be taken to make essential communications services deployed on Tribal lands both feasible and sustainable. The Company and Tribal authorities will also discuss and explore ways in which they can coordinate to ensure that services are marketed on tribal lands in a manner that will relate to the community and resonate with consumers, with the aim of increasing service adoption.

Lifeline Terms and Conditions

Golden West Telecommunications Cooperative, Inc. offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

Low-Income Home Energy Assistance Program (LIHEAP)
Federal Public Housing Assistance (Section 8)
Supplemental Nutrition Assistance Program (SNAP)
Medicaid
National School Lunch Program's Free Lunch Program
Supplemental Security Income (SSI)
Temporary Assistance for Needy Families (TANF)

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

2014 Federal Poverty Guidelines – 135%

Household Size	48 Contiguous States and D.C.	Alaska	Hawaii
1	\$15,755	\$19,683	\$18,117
2	\$21,236	\$26,541	\$24,422
3	\$26,717	\$33,399	\$30,726
4	\$32,198	\$40,257	\$37,031
5	\$37,679	\$47,115	\$43,335
6	\$43,160	\$53,973	\$49,640
7	\$48,641	\$60,831	\$55,944
8	\$54,122	\$67,689	\$62,249
For each additional person, add	\$5,481	\$6,858	\$6,305

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

Tribal Eligibility

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines.

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

Golden West Telecommunications Cooperative, Inc.'s Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. Golden West Telecommunications Cooperative, Inc.'s Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by Golden West Telecommunications Cooperative, Inc. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.
